

# Strategic Plan Analysis Findings

April 12, 2022

# Project Overview

# *Young children as a portion of overall population has been shrinking in New Hampshire*

# *Children in New Hampshire are proportionally more diverse than the overall state population*

**NH Total Population, 2021**

**NH Children 0-11 Population, 2020**

# Numbers of non-White N.H. children have been increasing for the last decade, with the greatest increase among Hispanic children

Children Ages 0-11 Population by Race

# *The percentage of N.H. children below the federal poverty level was lower than the national percentage of 17%, but other poverty indicators show greater need*

**Children 0-18 below Federal Poverty Level 2019**

N=257,143

**Children 0-18 Who are Food Insecure 2019**

N=256,697

## **Children Qualifying for Free-or-Reduced-Price Lunch**

**Children in Preschool**

N= 3,842

**Children in Kindergarten**

N=10,949

**Children in K-8th Grades**

N=107,089

***Because of the high cost of living in New Hampshire, families up to 300% of the federal policy level are barely able to meet their basic needs, which includes almost half of the state's children***

**Estimated Distribution of Children Ages 0-8 in New Hampshire by Income Relative to the Federal Poverty Level, 2017**

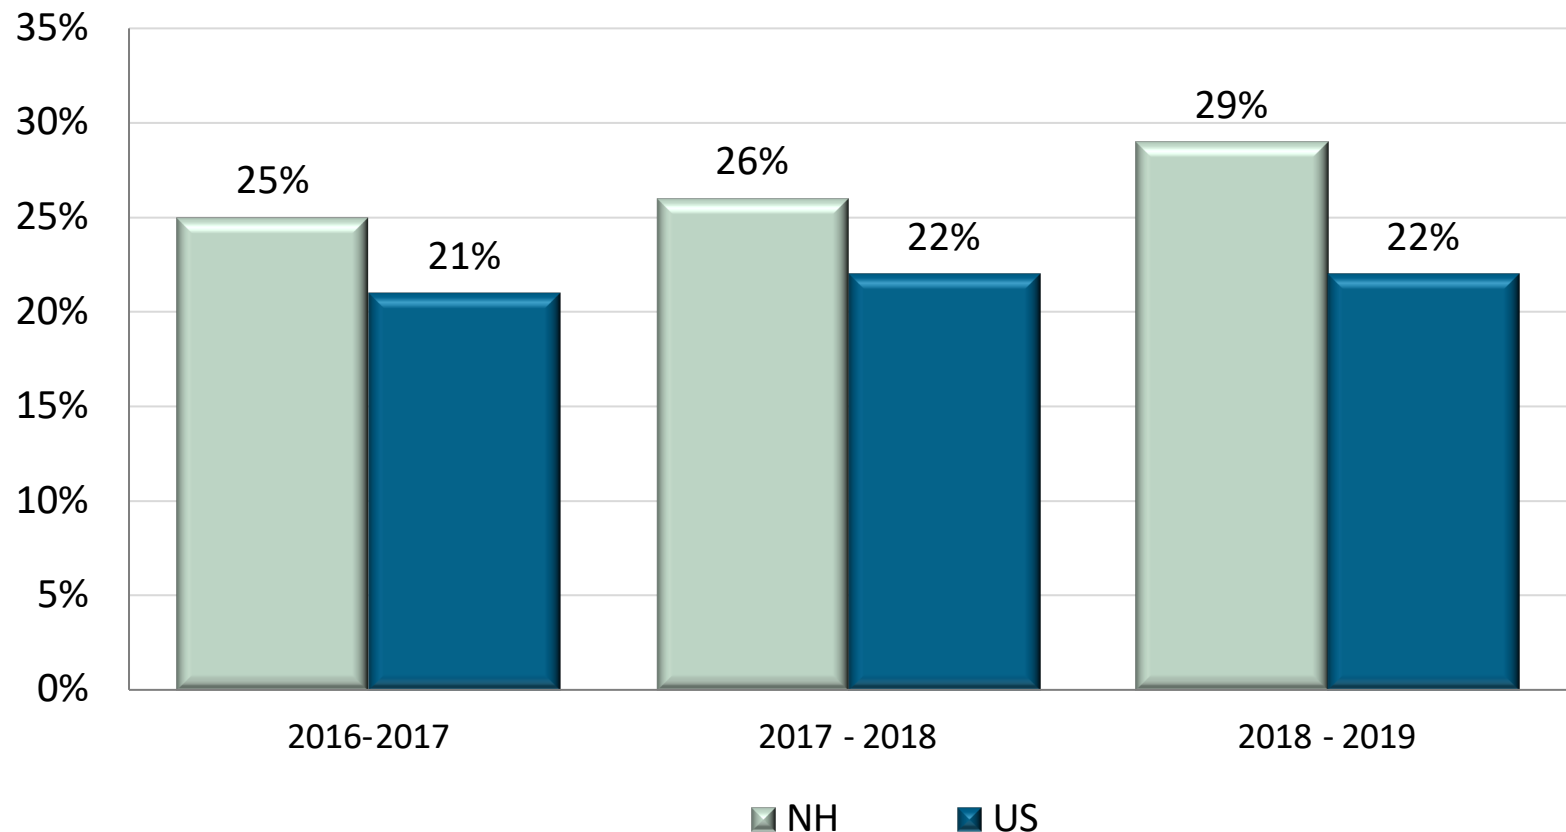

# *N.H. early childhood health indicators were more positive than the nation overall*

# Higher proportions of N.H. children have conditions requiring supportive services than the nation overall

Children Ages 3 to 17 who have one or more emotional, behavioral, or developmental conditions\*

\*Children ages 3 to 17 with a parent who reports that a doctor has told them their child has autism, developmental delays, depression or anxiety, ADD/ADHD, or behavioral/conduct

Source: US Census Bureau, American Community Survey; Child Trends Analysis, National Survey of Children's Health.

# The proportion of younger N.H. children not in school decreased slightly while the national rate stayed the same

Young Children Ages 3-4 Not in School\*

\*Not in school is defined as the share of children ages 3 to 4 not enrolled in school, including nursery school, preschool, or kindergarten, during the previous three months. "Nursery school" and "preschool" include any group or class of institution providing educational experiences for children during the years preceding kindergarten. Head Start is included, while care in a private home would not be.

Source: US Census Bureau, American Community Survey; Child Trends Analysis, National Survey of Children's Health.

# *The percentage of lower-income young children not in school rose slightly, while the percentage of other young children not in school has not changed*

\*Not in school is defined as the share of children ages 3 to 4 not enrolled in school, including nursery school, preschool, or kindergarten, during the previous three months, including Head Start but not care in a private home.

Source: Population Reference Bureau, US Census Bureau, American Community Survey.

# Health support services in New Hampshire reach some of the most vulnerable children in the state through WIC, home visiting and lead testing

## WIC

**44%** of eligible individuals in New Hampshire participated in WIC in 2018 for a total of **14,961 participants**

2018 WIC Participants in New Hampshire	
Pregnant women	1,103
Breastfeeding women	1,087
Postpartum women	993
Infants	3,384
Children	8,394

## Evidence-Based Home Visiting

2020 NH MIECHV and non-MIECHV Data	
Home Visits Provided	4,911 (including 2,811 virtual)
Families Served	501
Children Served	540

## Testing for Lead Exposure

New children 72 months and younger above the state action limit requiring medical nurse case management\*

\*On July 1, 2019, the NH action level requiring a public health nurse home visit and a lead exposure investigation was lowered from 10  $\text{Mg/dL}$  or higher, to 7.5  $\text{Mg/dL}$  or higher for children ages 72 months or younger.

Sources: National WIC Association; MIECHV State Data Tables, 2020; *Lead Exposure in New Hampshire Data Brief 2020*.

# 2021-22 enrollment for N.H. preschool children increased almost to pre-pandemic levels, while Grades K-3 enrollment continue to show longer term decline since 2013-14

New Hampshire Student Enrollment for Youngest Grade Levels

***Math and Reading proficiency had a sharp decline in 2021 potentially due to loss of learning during the Covid pandemic as well as significantly fewer students participating in the assessments; in the five years prior to 2019, Reading proficiency had declined while Math proficiency had increased***

**3rd Grade Performance on NH State Assessment  
% of All Students Proficient and Above Proficient in Reading and Math**

\*State Assessment switched to SAS

Note: Assessments were not administered in 2020

Source: New Hampshire Department of Education

# On 3<sup>rd</sup> grade Reading and Math state assessments, lower percentages of Hispanic and Black students are proficient, as well as English language learners, students with disabilities and lower-income students (SES)

**2021 3<sup>rd</sup> Grade Performance on NH State Assessment - Reading**

**2021 3<sup>rd</sup> Grade Performance on NH State Assessment - Math**

\* Proficient and Above Proficient Total is 13% - exact individual categories are unknown but both are <10%

Source: New Hampshire Department of Education.

# N.H. has seen larger declines in 4<sup>th</sup> grade NAEP scores than the nation overall, with 2019 NAEP scores much closer to the national average

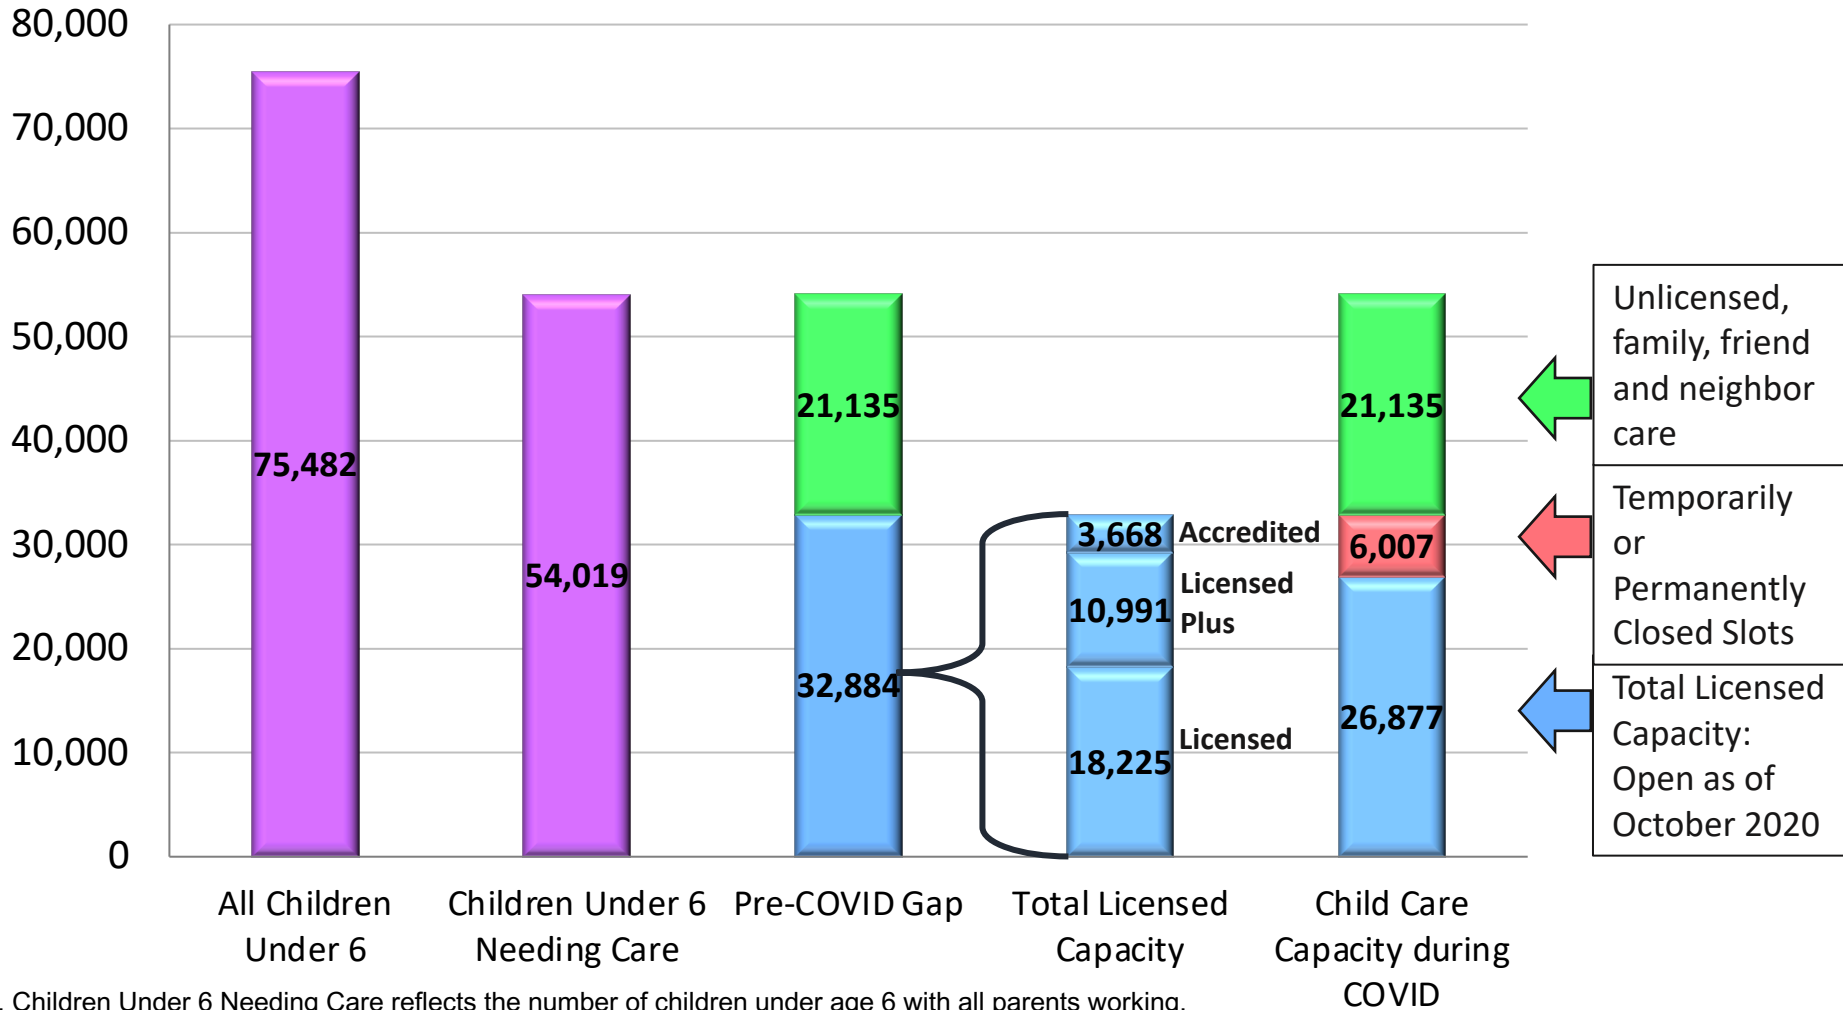

Source: The Nation's Report Card, US Department of Education.

# Temporary or permanent closures in N.H. child care slots exacerbated the pre-Covid gap in capacity

Licensed Child Care Capacity in New Hampshire, October 2020

1. Children Under 6 Needing Care reflects the number of children under age 6 with all parents working.

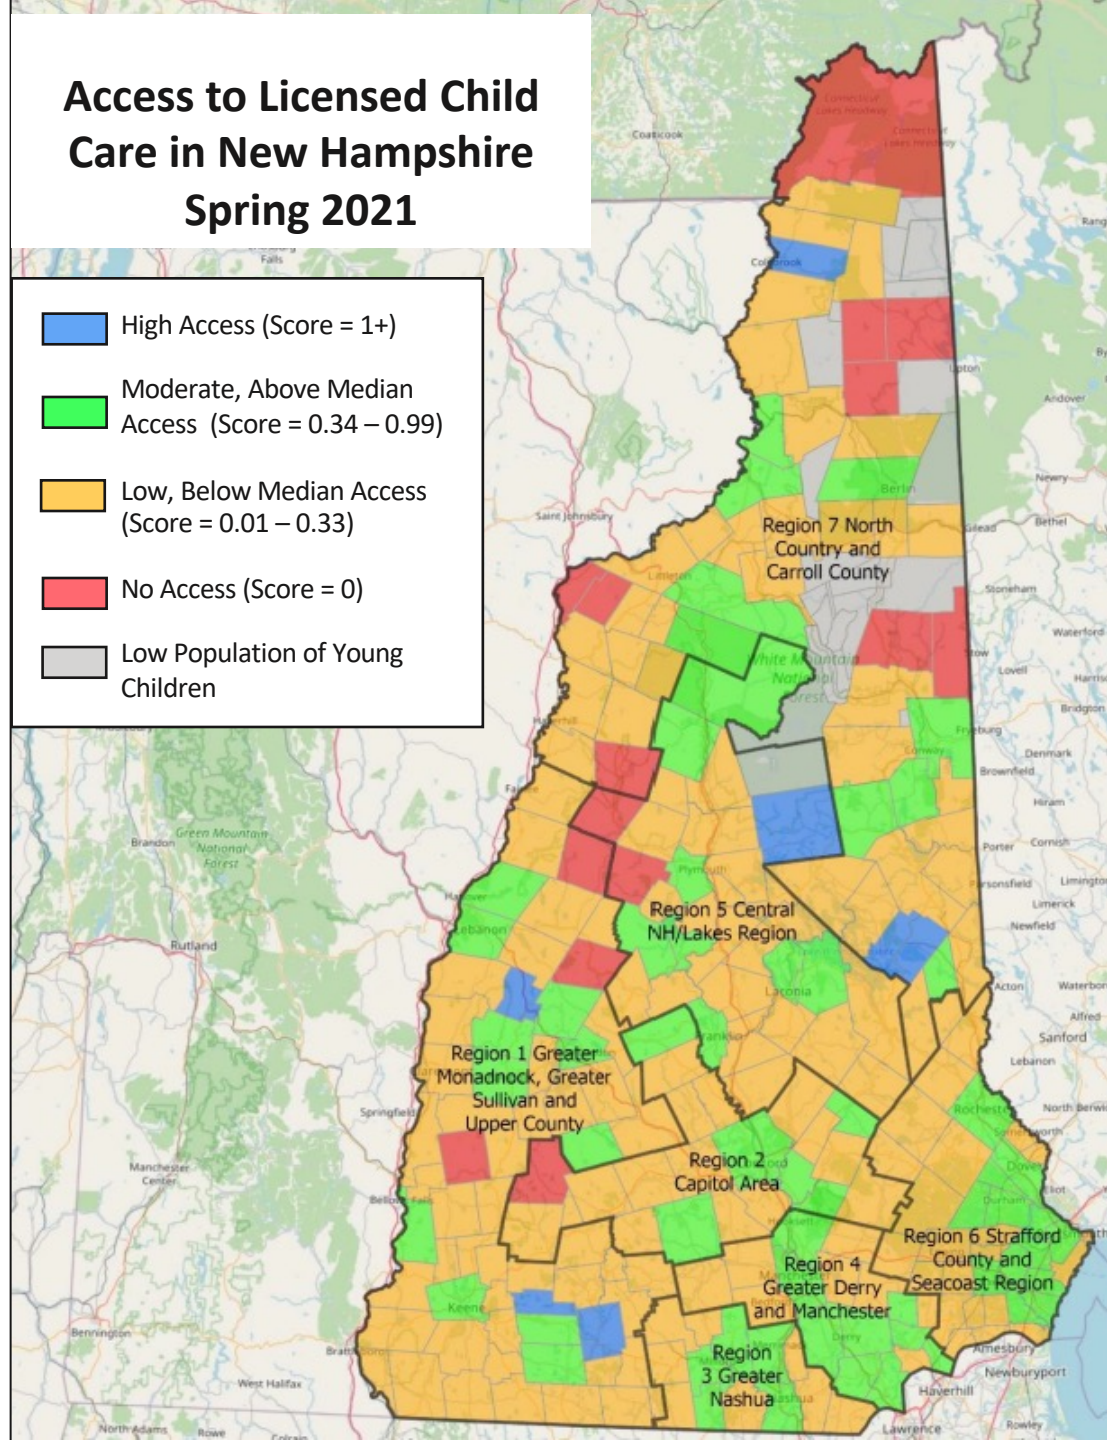

2. As of October 2020, there were 10,111 Kindergarteners and 11,675 first-graders enrolled in New Hampshire Public Schools.

3. Licensed Capacity does not include Licensed Exempt programs.

Source: *Constraints to New Hampshire's Workforce Recovery*, February 18, 2021, Child Care Aware of America, 2020.

**Access to licensed child care in New Hampshire is highest in urban areas, with about one licensed slot for every three children in the state within a 20-minutes driving distance of their home.**

Source: *New Hampshire's Early Childhood System in the Time of COVID-19: Child Care Access and Regional Systems Coordination*, October 2021.

# Counties with lower average absolute child care costs still face high costs relative to income

**Annual Cost of Child Care for Center-based Care as a Share of Median Income for Two-Parent Family with One Infant or One Infant and One Four-Year Old:**

**State Average**

**One Infant: \$13,044**

**One Infant and One Four-Year Old: \$23,647**

County	One Infant	Share of Median Income (2-Parent)	Two Children (Infant & 4YO)	Share of Median Income (2-Parent)
Belknap	\$10,192	11%	\$18,858	20%
Carroll	\$10,247	14%	\$18,857	26%
Cheshire	\$12,009	13%	\$21,460	24%
Coos	\$9,193	14%	\$17,253	25%
Grafton	\$12,955	14%	\$22,808	25%
Hillsborough	\$13,106	12%	\$23,497	22%
Merrimack	\$11,604	12%	\$21,395	22%
Rockingham	\$13,897	12%	\$24,961	22%
Strafford	\$10,024	11%	\$20,173	22%
Sullivan	\$12,434	15%	\$21,534	27%
<b>State Average</b>	<b>\$13,044</b>	<b>12%</b>	<b>\$23,647</b>	<b>22%</b>

Source: Child Care Aware of America, 2020.

# *The number of N.H. Child Care Scholarships and beneficiaries of the scholarships have declined in recent years*

New Hampshire Child Care Scholarship	2019	2020	2021
Number of Families Receiving Services	5,006	4,135	3,650
Number of children receiving child care services	7,742	5,968	5,204
Number of child care providers receiving CCDF funding by type of care	842	568	496

# The cost of child care is the second most common type of benefit cliff after health care, making child care a significant barrier to labor force participation

## Benefit Cliffs Analysis – Child Care

Program	# Families Affected	Unique Families Facing Cliffs	Common Cliffs	Nature of Cliff	Most Impacted Household Types
Child Care	25,824	18,028	Single parent joining workforce Second adult w/children joining workforce	HH Cost Increase	All households w/ children

Source: Constraints to New Hampshire’s Workforce Recovery, February 18, 2021.

# Low wages penalize N.H. early childhood educators for working with younger children

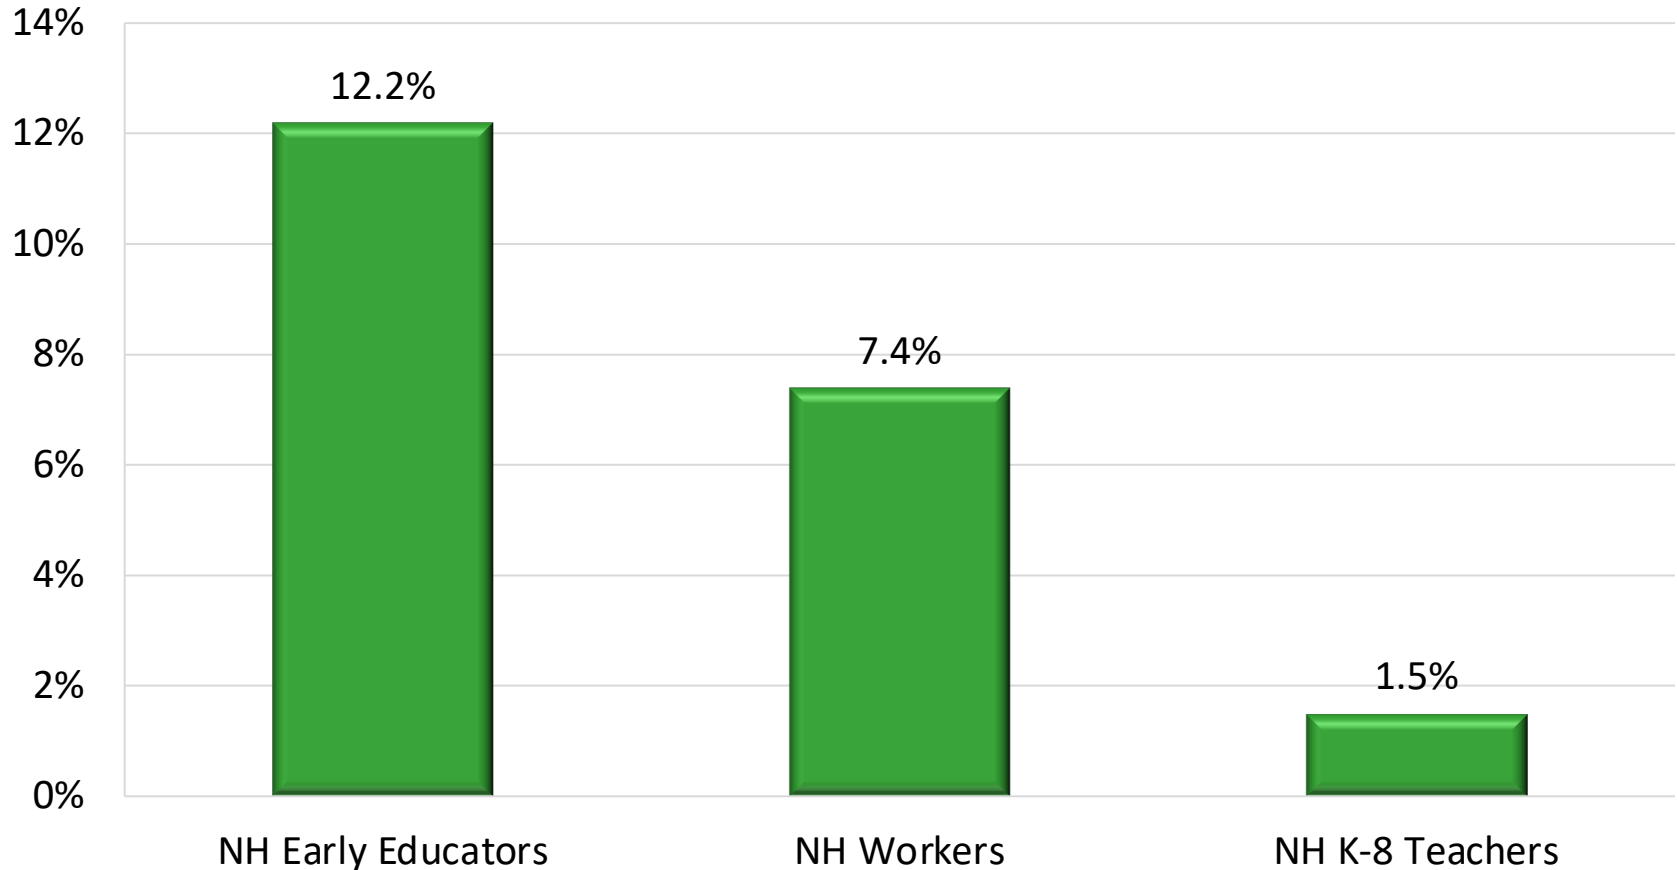

Earnings by Occupation for Early Educators in New Hampshire, 2019

Source: Center for the Study of Child Care Employment, University of California, Berkeley, 2020.

# *A greater proportion of early educators are below the poverty rate than workers overall and than K-8 teachers*

**New Hampshire Early Educators Below the Poverty Rate, 2020**

# Home visitors have faced challenges with low wages and frustration at insufficient access to services for families

	Average Ranking	N=# of people ranked in top 10
Insufficient salary	9.03	37
Unavailability of services to refer families	8.15	33
Lack of coordinated efforts to support families at county/ town/ state level	7.61	28
Not enough opportunities to support self-care	6.07	27
Lack of organizational support	5.74	23
Caseloads too large	5.54	22
Personal safety	4.82	22
Lack of direct supervision	4.55	22
No reimbursement for mileage/ out of pocket expenses	4.45	22
Lack of available training and development opportunities	3.86	22

# Families were not aware of many available early childhood services; knowledge was lowest for home visiting and parent education programs

Percentage of Survey Respondents Reporting They Have Heard of Specific Programs:  
Total and by Nonrural/Rural Subgroups 2020

Source: PDG B-5 Family Survey, *Understanding the New Hampshire Birth through Five System, A Needs Assessment*, 2020. Responses are tabulated for all 1,278 family survey respondents. Program names with an \* are targeted to lower-income children and families.

# Families in rural areas had higher awareness of supports than those in nonrural areas

**Percentage of Survey Respondents Reporting They Have Heard of Specific Programs: Total and by Nonrural/Rural Subgroups 2020**

Source: PDG B-5 Family Survey, *Understanding the New Hampshire Birth through Five System, A Needs Assessment*, 2020. Responses are tabulated for all 1,278 family survey respondents. Program names with an \* are targeted to lower-income children and families.

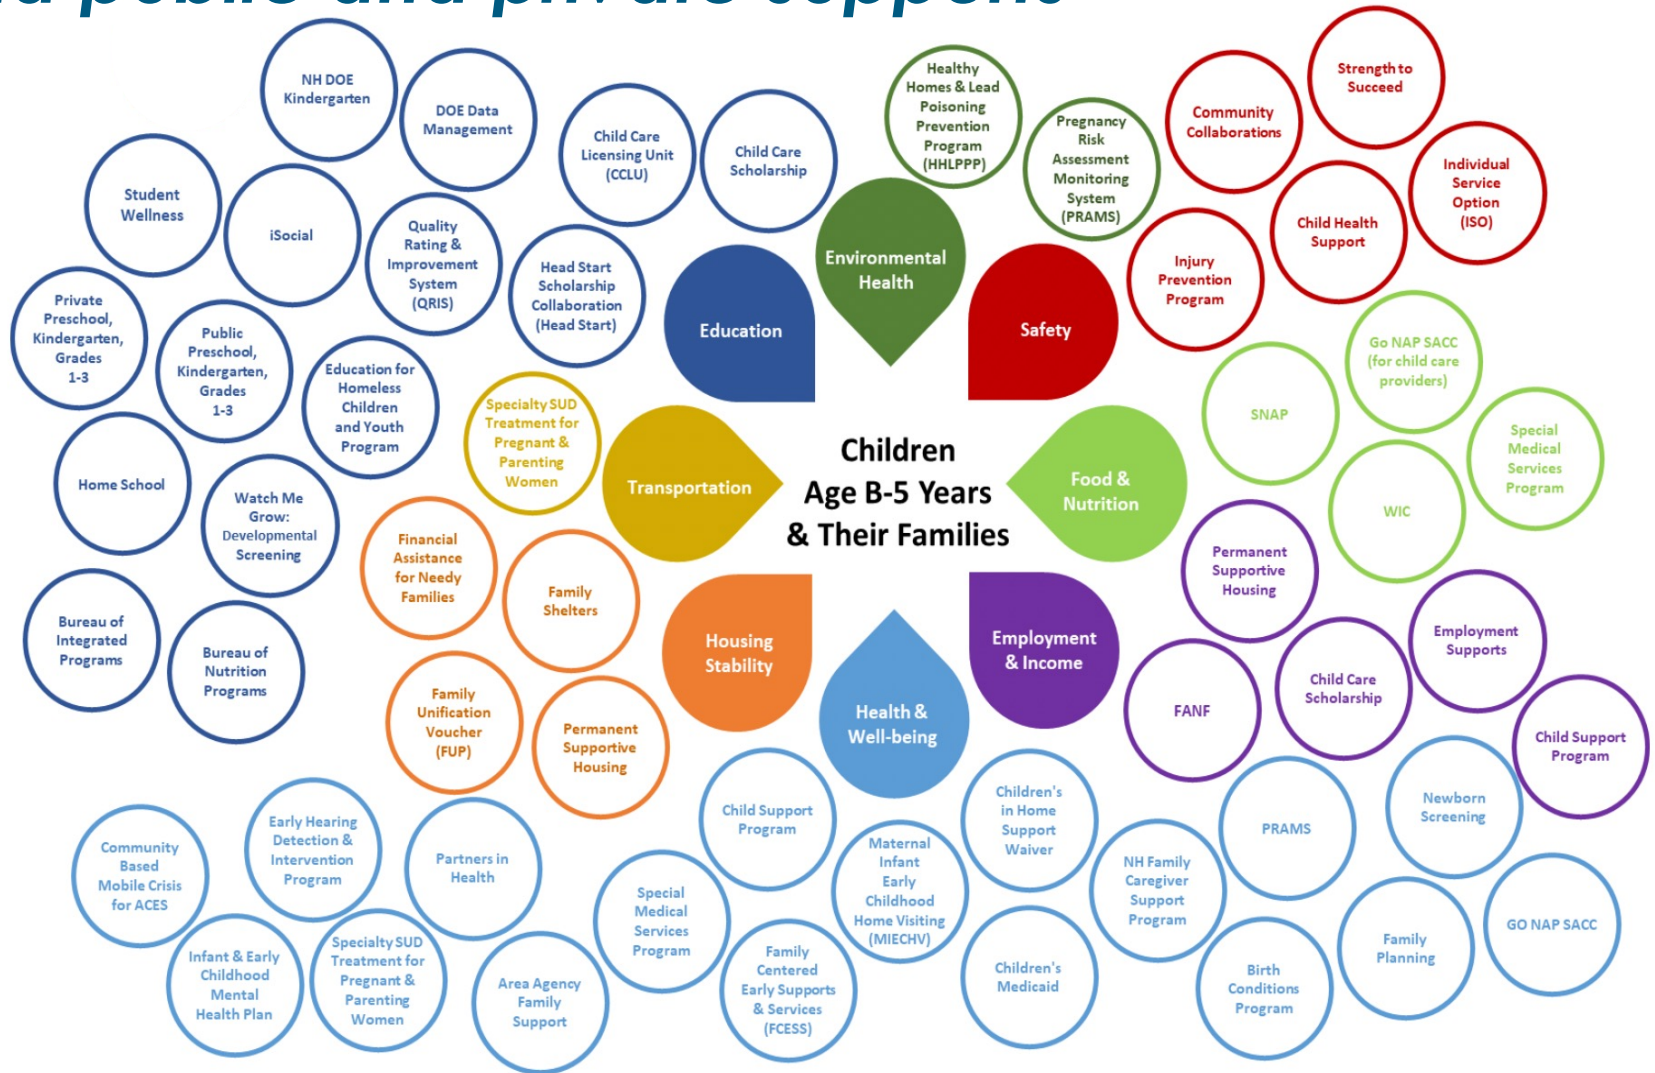

# Parent concerns were higher among parents who are low-income, have a child with a disability or are housing insecure

Concerns by Parent Type

Source: New Hampshire Preschool Development Grant Implementation Year Needs Assessment, 2021.

# The birth-to-five system in New Hampshire as of 2020 included a complex assortment of programs and public and private supports
